

## Emergency Relief Appeal for Myanmar Earthquake Victims 31 March 2025

On 28 March 2025 at 12:50:54 MMT (06:20:54 UTC), a magnitude 7.7 earthquake struck central Myanmar. This powerful quake is the strongest to hit Myanmar since 1912. The disaster has tragically claimed over **2,600** lives so far.

In response to this tragedy, the **ANU Myanmar Students' Association (ANUMSA)** has launched an 🇲🇲 emergency relief campaign. We are working with trusted grassroots networks already active on the ground to deliver essential humanitarian aid to those impacted by the earthquake.

All donations will directly fund immediate relief efforts, including the delivery of critical supplies and medical support to vulnerable communities.
